

SURE SIGNAL PREMIUM CASE STUDY

Department
of Health

- Customer: UK Government National Agency: 1.8 million employees and a £110 Billion annual operating budget
- Challenge: Highly mobile employees require excellent mobile services and great indoor cellular service in Grade Two Heritage building in London
- Solution: Services Node installed in Department of Health (DoH)
 - Data Center and 45 Radio Nodes installed in the site,
 - Utilized DoH's enterprise LAN/VLAN Architecture
 - Onsite installation completed in two evenings
- Outcome: Excellent mobile coverage throughout building
 - Helped converged Voice over IP Strategy to be successful
 - 600 voice calls and 46,000+ data sessions per day
 - DoH Now considering deployment at additional facilities across England

Vodafone & SpiderCloud deliver converged VoIP service to UK Department of Health with Sure Signal Premium
