

Densification in High Traffic Locations

“Together with our partners we turned a simple idea into a pioneering innovation”

Heinz Herren,
CTO and CIO of Swisscom

Availability of suitable sites, the high cost of site acquisition, regulations with zoning ordinances, and the ability to connect to the core network are problematic.

- Bridge entry barriers – aesthetics
- Reuse existing infrastructure

Swisscom densify cities with Underground Vault Site, enabling reuse of existing underground space. Find out more: [Ericsson](#) and [Kathrein](#)
