

Enabling multi-operator in-building coverage using neutral host small cells

Winner
Outstanding Innovation
In Small Cell Business Case

Over 100 managed sites including...

"At EE we want our customers to have excellent connectivity wherever they are. Opencell demonstrate an excellent design, build and operational capability, which is vital for us when deploying our network connectivity into buildings."
Tom Bennett, Director, Technology Services, Devices and Labs, EE & BT

"Our goal is to eliminate mobile blackspots. We have chosen to partner with Opencell to provide deep indoor coverage into buildings, enabling our customers to make calls in places they have not been able to do historically.", Bryn Jones, CTO Three UK

"Vodafone have been working with Opencell since 2015 with excellent results. Small cells are a key part of our strategy going forwards and we encourage innovations like this, it is fantastic to see a business open up a new route to market and service in our industry", Kye Prigg, Head of Mobile Networks, Vodafone UK

"Telefonica embraces new technology and innovation and love the solution brought by Opencell, we are looking forward to further developments in small cells and are sure these will play a vital role in our future network development.", Brendan O'Reilly, CTO Telefonica UK

Join over 100+ UK enterprise sites benefitting from Opencell's multi-operator in-building small cells
